Long Beach, New York

January 11, 2011

Ladies and Gentlemen:

The Long Beach Board of Education is the authorized state agency responsible for setting educational policy in the district. It consists of five trustees, each serving a three-year term. Board members pay school taxes at the regular rate and receive no salary or other financial compensation.

All meetings, except executive sessions, are held before the public. Members of the public may address the Board of Education on any specific agenda item during special times reserved for that purpose prior to Board discussion and action. The public may also address the Board of Education on any matter of concern at a second public session after the Board of Education completes agenda action items. Visitors should not address the Board in public relative to questions or comments regarding specific staff members or specific students. Such concerns should be brought to the attention of appropriate staff or to Board members by telephone, in writing, or by scheduling a personal meeting, as appropriate to the circumstances.

Visitors' comments will be limited to three (3) minutes per agenda item to each individual speaker on items on the business meeting agenda and five (5) minutes to speak under new or old business. An individual may speak only once on a specific topic. Visitors are precluded from speaking on any agenda item more than once during each meeting.

Sincerely,

Your Board of Education

CAPITAL ASSETS ACCOUNTING POLICY

The Board of Education designates the School Business Official with the responsibility for the oversight of capital assets in accordance with the provisions that are contained in this policy.

Fixed assets having an estimated useful life of at least two years following the date of acquisition will be considered a capital asset. Useful lives will be determined in the year of purchase based on general guidelines obtained from professional organizations and the asset's present condition. Capitalization thresholds will be applied to individual fixed assets rather than groups of fixed assets.

All capital assets will be recorded at cost, which includes all necessary costs incurred to place the asset in service. Donated capital assets will be recorded at fair market value at the time received. If determining historical cost is not practical, estimated historical cost may be used.

If the value of the capital asset is greater than \$5,000, the capital asset will be depreciated using the straight-line method. Residual value will be considered. Depreciation will be calculated beginning in the year of acquisition. The threshold to be used for the categories of fixed assets is as follows:

	<u>District Purchasing</u> <u>Purposes</u>	<u>Financial Reporting</u> <u>Purposes</u>
Land Improvements	\$10,000	\$25,000
